# Manual Download

<http://www.mitsubishielectric.com/ldg/ibim/>

**EN** Go to the above website to download manuals, select model name, then choose language.

**DE** Besuchen Sie die oben stehende Website, um Anleitungen herunterzuladen, wählen Sie den Modellnamen und dann die Sprache aus.

**FR** Rendez-vous sur le site Web ci-dessus pour télécharger les manuels, sélectionnez le nom de modèle puis choisissez la langue.

**NL** Ga naar de bovenstaande website om handleidingen te downloaden, de modelnaam te selecteren en vervolgens de taal te kiezen.

**ES** Visite el sitio web anterior para descargar manuales, seleccione el nombre del modelo y luego elija el idioma.

**IT** Andare sul sito web indicato sopra per scaricare i manuali, selezionare il nome del modello e scegliere la lingua.

**EL** Μεταβείτε στον παραπάνω ιστότοπο για να κατεβάσετε εγχειρίδια. Επιλέξτε το όνομα του μοντέλου και, στη συνέχεια, τη γλώσσα.

**PT** Aceda ao site Web acima indicado para descargar manuais, seleccione o nome do modelo e, em seguida, escolha o idioma.

**DA** Gå til ovenstående websted for at downloade manualer og vælge modelnavn, og vælg derefter sprog.

**SV** Gå till ovanstående webbplats för att ladda ner anvisningar, välj modellnamn och välj sedan språk.

**TR** Kılavuzları indirmek için yukarıdaki web sitesine gidin, model adını ve ardından dili seçin.

**BG** Посетете горепосочения уебсайт, за да изтеглите ръководства, като изберете име на модел и след това – език.

**PL** Odwiedź powyższą stronę internetową, aby pobrać instrukcje, wybierz nazwę modelu, a następnie język.

**NO** Gå til nettstedet over for å laste ned håndbøker og velg modellnavn, og velg deretter språk.

**FI** Mene yllä mainitulle verkkosivulle ladataksesi oppaat, valitse mallin nimi ja valitse sitten kieli.

**CS** Příručky naleznete ke stažení na internetové stránce zmíněné výše poté, co zvolíte model a jazyk.

**SK** Na webovej stránke vyššie si môžete stiahnuť návody. Vyberte názov modelu a zvoľte požadovaný jazyk.

**HU** A kézikönyvek letöltéséhez látogasson el a fenti weboldalra, válassza ki a modell nevét, majd válasszon nyelvet.

**SL** Običajte zgornjo spletno stran za prenos priročnikov; izberite ime modela, nato izberite jezik.

**RO** Accesați site-ul web de mai sus pentru a descărca manualele, selectați denumirea modelului, apoi alegeți limba.

**ET** Kasutusjuhendite allalaadimiseks minge ülaloodud veebilehele, valige mudeli nimi ja seejärel keel.

**LV** Dodieties uz iepriekš norādīto tīmekļa vietni, lai lejupielādētu rokasgrāmatas; tad izvēlieties modeļa nosaukumu un valodu.

**LT** Norėdami atsisiųsti vadovus, apsilankykite pirmiau nurodytoje žiniatinklio svetainėje, pasirinkite modelio pavadinimą, tada – kalbą.

**HR** Kako biste preuzeli priručnike, idite na gore navedeno web-mjesto, odaberite naziv modela, a potom odaberite jezik.

**SR** Idite na gore navedenu veb stranicu da biste preuzeli uputstva, izaberite ime modela, a zatim izaberite jezik.

# SAFETY PRECAUTIONS

## Meanings of symbols displayed on indoor unit and/or outdoor unit

	<b>WARNING</b> (Risk of fire)	This unit uses a flammable refrigerant. If refrigerant leaks and comes in contact with fire or heating part, it will create harmful gas and there is risk of fire.
	Read the OPERATING INSTRUCTIONS carefully before operation.	
	Service personnel are required to carefully read the OPERATING INSTRUCTIONS and INSTALLATION MANUAL before operation.	
	Further information is available in the OPERATING INSTRUCTIONS, INSTALLATION MANUAL, and the like.	

- Since rotating parts and parts which could cause an electric shock are used in this product, be sure to read these "Safety Precautions" before use.
- Since the cautionary items shown here are important for safety, be sure to observe them.
- After reading this manual, keep it together with the installation manual in a handy place for easy reference.

### Marks and their meanings

- WARNING :** Incorrect handling could cause serious hazard, such as death, serious injury, etc. with a high probability.
- CAUTION :** Incorrect handling could cause serious hazard depending on the conditions.

### Meanings of symbols used in this manual

	: Be sure not to do.
	: Be sure to follow the instruction.
	: Never insert your finger or stick, etc.
	: Never step onto the indoor/outdoor unit and do not put anything on them.
	: Danger of electric shock. Be careful.
	: Be sure to disconnect the power supply plug from the power outlet.
	: Be sure to shut off the power.
	: Risk of fire.

<b>WARNING</b>	
	<b>Do not connect the power cord to an intermediate point, use an extension cord, or connect multiple devices to a single AC outlet.</b> <ul style="list-style-type: none"> <li>This may cause overheating, fire, or electric shock.</li> </ul>
	<b>Make sure the power plug is free of dirt and insert it securely into the outlet.</b> <ul style="list-style-type: none"> <li>A dirty plug may cause fire or electric shock.</li> </ul>
	<b>Do not bundle, pull, damage, or modify the power cord, and do not apply heat or place heavy objects on it.</b> <ul style="list-style-type: none"> <li>This may cause fire or electric shock.</li> </ul>
	<b>Do not turn the breaker OFF/ON or disconnect/connect the power plug during operation.</b> <ul style="list-style-type: none"> <li>This may create sparks, which can cause fire.</li> <li>After the indoor unit is switched OFF with the remote controller, make sure to turn the breaker OFF or disconnect the power plug.</li> </ul>
	<b>Do not expose your body directly to cool air for a prolonged length of time.</b> <ul style="list-style-type: none"> <li>This could be detrimental to your health.</li> </ul>
	<b>The unit should not be installed, relocated, disassembled, altered, or repaired by the user.</b> <ul style="list-style-type: none"> <li>An improperly handled air conditioner may cause fire, electric shock, injury, or water leakage, etc. Consult your dealer.</li> <li>If the power supply cord is damaged, it must be replaced by the manufacturer or its service agent in order to avoid a hazard.</li> </ul>
	<b>When installing, relocating, or servicing the unit, make sure that no substance other than the specified refrigerant (R32/R410A) enters the refrigerant circuit.</b> <ul style="list-style-type: none"> <li>Any presence of foreign substance such as air can cause abnormal pressure rise and may result in explosion or injury.</li> <li>The use of any refrigerant other than that specified for the system will cause mechanical failure, system malfunction, or unit breakdown. In the worst case, this could lead to a serious impediment to securing product safety.</li> </ul>
	<b>This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.</b> <p><b>Children should be supervised to ensure that they do not play with the appliance.</b></p>
	<b>Do not insert your finger, a stick, or other objects into the air inlet or outlet.</b> <ul style="list-style-type: none"> <li>This may cause injury, since the fan inside rotates at high speeds during operation.</li> </ul>

	<b>In case of an abnormal condition (such as a burning smell), stop the air conditioner and disconnect the power plug or turn the breaker OFF.</b> <ul style="list-style-type: none"> <li>A continued operation in the abnormal state may cause a malfunction, fire, or electric shock. In this case, consult your dealer.</li> </ul>
	<b>When the air conditioner does not cool or heat, there is a possibility of refrigerant leakage. If any refrigerant leakage is found, stop operations and ventilate the room well and consult your dealer immediately. If a repair involves recharging the unit with refrigerant, ask the service technician for details.</b> <ul style="list-style-type: none"> <li>The refrigerant used in the air conditioner is not harmful. Normally, it does not leak. However, if refrigerant leaks and comes in contact with fire or heating part of such a fan heater, kerosene heater, or cooking stove, it will create harmful gas and there is risk of fire.</li> </ul>
	<b>The user should never attempt to wash the inside of the indoor unit. Should the inside of the unit require cleaning, contact your dealer.</b> <ul style="list-style-type: none"> <li>Unsuitable detergent may cause damage to plastic material inside the unit, which may result in water leakage. Should detergent come in contact with electrical parts or the motor, it will result in a malfunction, smoke, or fire.</li> <li>The appliance shall be stored in a room without continuously operating ignition sources (for example: open flames, an operating gas appliance or an operating electric heater).</li> <li>Be aware that refrigerants may not contain an odour.</li> <li>Do not use means to accelerate the defrosting process or to clean the appliance, other than those recommended by the manufacturer.</li> <li>Do not pierce or burn.</li> </ul>
	<b>This unit should be installed in rooms which exceed the floor space specified in outdoor unit installation manual.</b> <ul style="list-style-type: none"> <li>Refer to outdoor unit installation manual.</li> </ul>
	<b>This appliance is intended to be used by expert or trained users in shops, in light industry and on farms, or for commercial use by lay persons.</b>
	<b>CAUTION</b>
	<b>Do not touch the air inlet or the aluminum fins of the indoor/outdoor unit.</b> <ul style="list-style-type: none"> <li>This may cause injury.</li> </ul>
	<b>Do not use insecticides or flammable sprays on the unit.</b> <ul style="list-style-type: none"> <li>This may cause a fire or deformation of the unit.</li> </ul>
	<b>Do not expose pets or houseplants to direct airflow.</b> <ul style="list-style-type: none"> <li>This may cause injury to the pets or plants.</li> </ul>

## SAFETY PRECAUTIONS

 <ul style="list-style-type: none"> <li><b>Do not place other electric appliances or furniture under the indoor/outdoor unit.</b> <ul style="list-style-type: none"> <li>• Water may drip down from the unit, which may cause damage or malfunction.</li> </ul> </li> <li><b>Do not leave the unit on a damaged installation stand.</b> <ul style="list-style-type: none"> <li>• The unit may fall and cause injury.</li> </ul> </li> <li><b>Do not step on an unstable bench to operate or clean the unit.</b> <ul style="list-style-type: none"> <li>• This may cause injury if you fall down.</li> </ul> </li> <li><b>Do not pull the power cord.</b> <ul style="list-style-type: none"> <li>• This may cause a portion of the core wire to break, which may cause overheating or fire.</li> </ul> </li> <li><b>Do not charge or disassemble the batteries, and do not throw them into a fire.</b> <ul style="list-style-type: none"> <li>• This may cause the batteries to leak, or cause a fire or explosion.</li> </ul> </li> <li><b>Do not operate the unit for more than 4 hours at high humidity (80% RH or more) and/or with windows or outside door left open.</b> <ul style="list-style-type: none"> <li>• This may cause the water condensation in the air conditioner, which may drip down, wetting or damaging the furniture.</li> <li>• The water condensation in the air conditioner may contribute to growth of fungi, such as mold.</li> </ul> </li> <li><b>Do not use the unit for special purposes, such as storing food, raising animals, growing plants, or preserving precision devices or art objects.</b> <ul style="list-style-type: none"> <li>• This may cause deterioration of quality, or harm to animals and plants.</li> </ul> </li> <li><b>Do not expose combustion appliances to direct airflow.</b> <ul style="list-style-type: none"> <li>• This may cause incomplete combustion.</li> </ul> </li> <li><b>Never put batteries in your mouth for any reason to avoid accidental ingestion.</b> <ul style="list-style-type: none"> <li>• Battery ingestion may cause choking and/or poisoning.</li> </ul> </li> </ul>	 <ul style="list-style-type: none"> <li><b>After the air conditioner is used for several seasons, perform inspection and maintenance in addition to normal cleaning.</b> <ul style="list-style-type: none"> <li>• Dirt or dust in the unit may create an unpleasant odor, contribute to growth of fungi, such as mold, or clog the drain passage, and cause water to leak from the indoor unit. Consult your dealer for inspection and maintenance, which require specialized knowledge and skills.</li> </ul> </li> <li><b>Do not operate switches with wet hands.</b> <ul style="list-style-type: none"> <li>• This may cause electric shock.</li> </ul> </li> <li><b>Do not clean the air conditioner with water or place an object that contains water, such as a flower vase, on it.</b> <ul style="list-style-type: none"> <li>• This may cause fire or electric shock.</li> </ul> </li> <li><b>Do not step on or place any object on the outdoor unit.</b> <ul style="list-style-type: none"> <li>• This may cause injury if you or the object falls down.</li> </ul> </li> </ul>
---	---

### IMPORTANT

Dirty filters cause condensation in the air conditioner which will contribute to the growth of fungi such as mold. It is therefore recommended to clean air filters every 2 weeks.

## For installation

 <b>WARNING</b>	
 <ul style="list-style-type: none"> <li><b>Consult your dealer for installing the air conditioner.</b> <ul style="list-style-type: none"> <li>• It should not be installed by the user since installation requires specialized knowledge and skills. An improperly installed air conditioner may cause water leakage, fire, or electric shock.</li> </ul> </li> <li><b>Provide a dedicated power supply for the air conditioner.</b> <ul style="list-style-type: none"> <li>• A non-dedicated power supply may cause overheating or fire.</li> </ul> </li> <li><b>Do not install the unit where flammable gas could leak.</b> <ul style="list-style-type: none"> <li>• If gas leaks and accumulates around the outdoor unit, it may cause an explosion.</li> </ul> </li> </ul>	 <ul style="list-style-type: none"> <li><b>Earth the unit correctly.</b> <ul style="list-style-type: none"> <li>• Do not connect the earth wire to a gas pipe, water pipe, lightning rod, or a telephone earth wire. Improper earthing may cause electric shock.</li> </ul> </li> </ul>
 <b>CAUTION</b>	
 <ul style="list-style-type: none"> <li><b>Install an earth leakage breaker depending on the installation location of the air conditioner (such as highly humid areas).</b> <ul style="list-style-type: none"> <li>• If an earth leakage breaker is not installed, it may cause electric shock.</li> </ul> </li> <li><b>Ensure that the drain water is properly drained.</b> <ul style="list-style-type: none"> <li>• If the drain passage is improper, water may drip down from the indoor/outdoor unit, wetting and damaging the furniture.</li> </ul> </li> </ul>	

### In case of an abnormal condition

Immediately stop operating the air conditioner and consult your dealer.

## DISPOSAL

To dispose of this product, consult your dealer.

### Note:

This symbol mark is for EU countries only.

This symbol mark is according to the directive 2012/19/EU Article 14 Information for users and Annex IX, and/or to the directive 2006/66/EC Article 20 Information for end-users and Annex II.

Fig. 1

Your MITSUBISHI ELECTRIC product is designed and manufactured with high quality materials and components which can be recycled and/or reused.

This symbol means that electrical and electronic equipment, batteries and accumulators, at their end-of-life, should be disposed of separately from your household waste.

If a chemical symbol is printed beneath the symbol (Fig. 1), this chemical symbol means that the battery or accumulator contains a heavy metal at a certain concentration. This will be indicated as follows:

Hg: mercury (0.0005%), Cd: cadmium (0.002%), Pb: lead (0.004%)

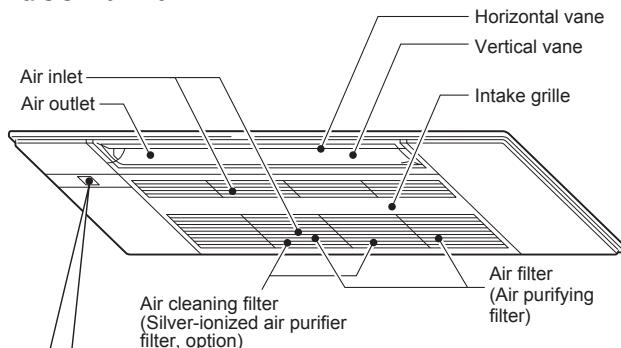

In the European Union there are separate collection systems for used electrical and electronic products, batteries and accumulators.

Please, dispose of this equipment, batteries and accumulators correctly at your local community waste collection/recycling centre.

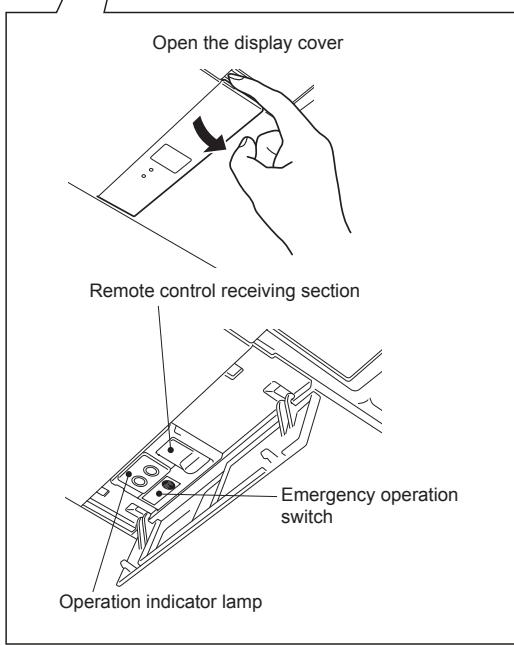

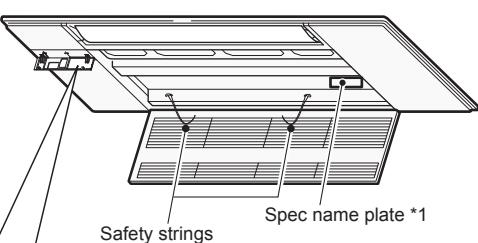

Please, help us to conserve the environment we live in!

# NAME OF EACH PART

## Indoor unit

### Display section

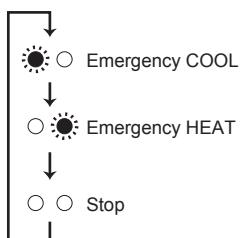

## When the remote controller cannot be used...

Emergency operation can be activated by pressing the emergency operation switch (E.O. SW) on the indoor unit.

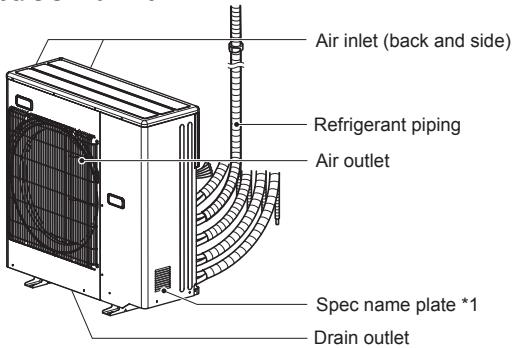

Each time the E.O. SW is pressed, the operation changes in the following order:

### Operation indicator lamp

Set temperature : 24°C  
Fan speed : Medium  
Horizontal vane : Auto

## Outdoor unit

Outdoor units may be different in appearance.

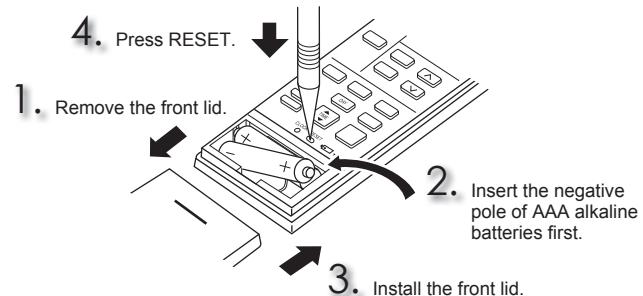

\*1 The manufacturing year and month is indicated on the spec name plate.

EN

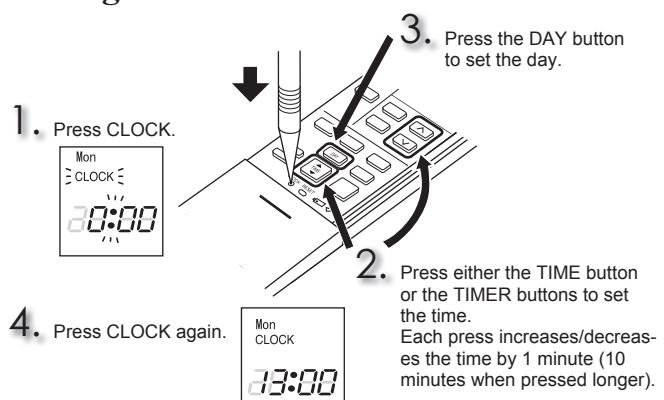

## P REPARATION BEFORE OPERATION

**Before operation:** Insert the power supply plug into the power outlet and/or turn the breaker on.

## Installing the remote controller batteries

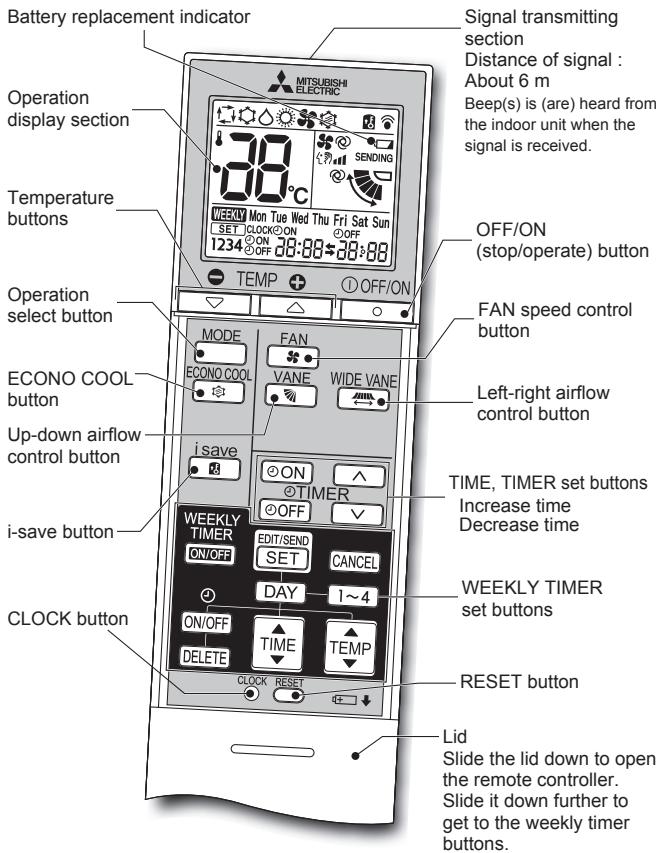

## Setting current time

# PREPARATION BEFORE OPERATION

## Remote controller

## TIME, TIMER set buttons

Increase time / Decrease time

**ON** (ON timer) : The unit turns ON at the set time.

**OFF** (OFF timer) : The unit turns OFF at the set time.

Press **↑** (Increase) and **↓** (Decrease) to set the time of timer.

## WEEKLY TIMER set buttons

Press **EDIT/SEND SET** to enter the weekly timer setting mode.

Press **DAY** and **1~4** to select setting day and number.

Press **ON/OFF**, **TIME**, and **TEMP** to set ON/OFF, time, and temperature.

Press **EDIT/SEND SET** to complete and transmit the weekly timer setting.

Press **WEEKLY TIMER ON/OFF** to turn the weekly timer ON. (**WEEKLY** lights.)

Press **WEEKLY TIMER ON/OFF** again to turn the weekly timer OFF. (**WEEKLY** goes out.)

**① OFF/ON** OFF/ON (stop/operate) button

**MODE** Operation select button

**Temperature buttons**

**FAN** FAN speed control button

**WIDE VANE** Left-right airflow control button

Press **WIDE VANE** to change horizontal airflow direction.

- The vertical vane moves for about 30 seconds.
- After 30 seconds, the vertical vane moves to its original position. In this case, press **WIDE VANE** again.

Press **WIDE VANE** again to set horizontal airflow direction.

- The vertical vane stops and the airflow direction is set.

**VANE** Up-down airflow control button

**ECONO COOL** ECONO COOL button

The set temperature and the airflow direction are automatically changed by the microprocessor.

**i save** i-save button

A simplified set back function enables to recall the preferred (preset) setting with a single push of the **i save** button. Press the button again and you can go back to the previous setting in an instance.

# CLEANING

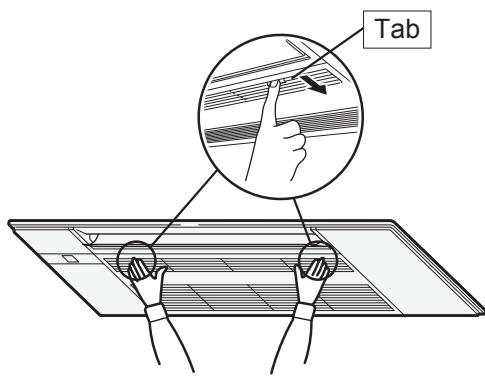

## Instructions:

- Switch off the power supply or turn off the breaker before cleaning.
- Be careful not to touch the metal parts with your hands.
- Do not use benzine, thinner, polishing powder, or insecticide.
- Use only diluted mild detergents.

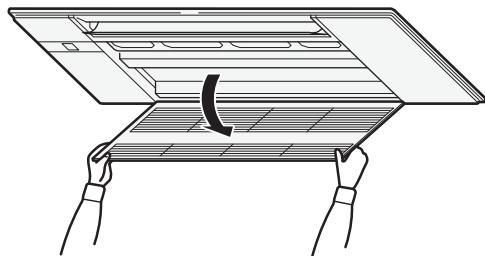

- Do not expose parts to direct sunlight, heat, or flames to dry.
- Do not use water hotter than 50°C.
- Do not use a scrubbing brush, a hard sponge, or the like.
- Do not soak or rinse the horizontal vane.

## Open

1. Press the tabs on the intake grille.

2. Open the intake grille while holding it.

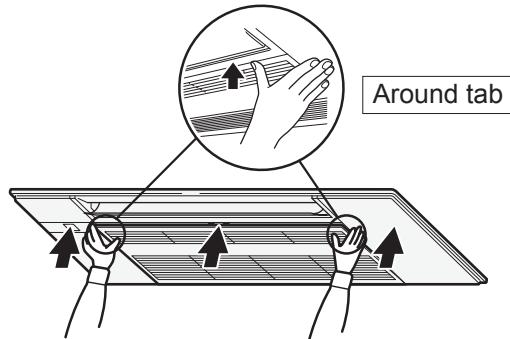

## Close

1. Close the intake grille.

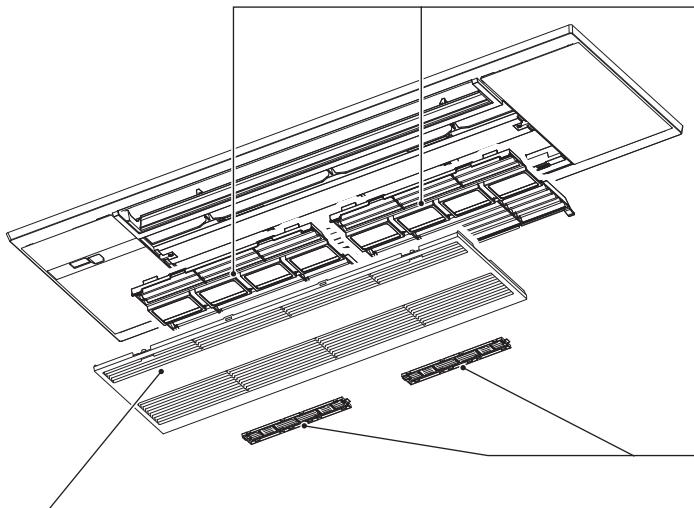

- Make sure that the safety strings do not hang out of the intake grille.

2. Press around the each tab of the intake grille until a "click" is heard and press the center.

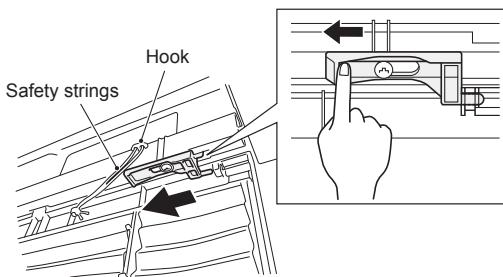

EN

# CLEANING

## Intake grille

- Slide the shafts and unhook the safety strings to remove.
- Wipe with a soft dry cloth, or wash it with water using soft cloth, sponge, etc.
- Do not soak it in water for more than two hours.
- Dry it well in shade before installing it.

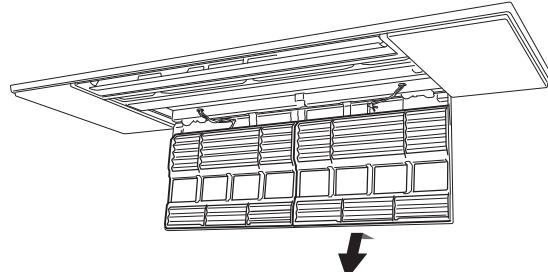

- Install the intake grille by following the removal procedure in reverse.

### ⚠ WARNING

Make sure to hook the safety string of the intake grille.  
Not doing so may cause injury due to the intake grille falling.

## Air filter (Air purifying filter)

- Clean every 2 weeks**
- Remove dirt by a vacuum cleaner, or rinse with water.
- Dry it well in shade before installing it.

## Air cleaning filter (Silver-ionized air purifier filter, option)

### Back side of air filter

#### Clean every 3 months:

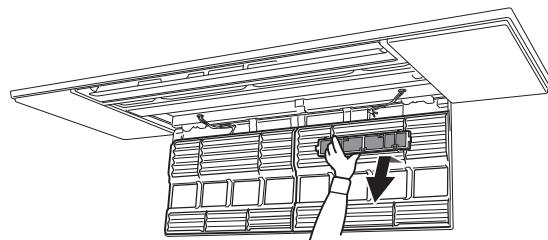

- Remove dirt by a vacuum cleaner.

#### When dirt cannot be removed by vacuum cleaning:

- Soak the filter and its frame in lukewarm water before rinsing it.  
(Diluted mild detergents can be used when dirt cannot be removed.)
- After washing, dry it well in shade.

#### Every year:

- Replace it with a new air cleaning filter for best performance.
- Parts Number **MAC-2370FT-E**

### ! Important

- Clean the filters regularly for best performance and to reduce power consumption.**
- Dirty filters cause condensation in the air conditioner which will contribute to the growth of fungi such as mold. It is therefore recommended to clean air filters every 2 weeks.**

# WHEN YOU THINK THAT TROUBLE HAS OCCURRED

**Even if these items are checked, when the unit does not recover from the trouble, stop using the air conditioner and consult your dealer.**

Symptom	Explanation & Check points
<b>Indoor Unit</b>	
The unit cannot be operated.	<ul style="list-style-type: none"> <li>Is the breaker turned on?</li> <li>Is the ON timer set?</li> </ul>
The unit cannot be operated for about 3 minutes when restarted.	<ul style="list-style-type: none"> <li>This protects the unit according to instructions from the microprocessor. Please wait.</li> </ul>
Mist is discharged from the air outlet of the indoor unit.	<ul style="list-style-type: none"> <li>The cool air from the unit rapidly cools moisture in the air inside the room, and it turns into mist.</li> </ul>
The swing operation of the HORIZONTAL VANE is suspended for a while, then restarted.	<ul style="list-style-type: none"> <li>This is for the swing operation of the HORIZONTAL VANE to be performed normally.</li> </ul>
The air flow direction changes during operation. The direction of the horizontal vane cannot be adjusted with the remote controller.	<ul style="list-style-type: none"> <li>In the heating operation, if the air flow temperature is too low or when defrosting is being done, the horizontal vane is automatically set to horizontal position.</li> </ul>
The operation is stopped for about 10 minutes in the heating operation.	<ul style="list-style-type: none"> <li>Defrosting of the outdoor unit is being done. Since this is completed in max. 10 minutes, please wait. (When the outside temperature is too low and humidity is too high, frost is formed.)</li> </ul>
The unit starts operation by itself when the main power is turned on, though it isn't operated with the remote controller.	<ul style="list-style-type: none"> <li>These models are equipped with an auto restart function. When the main power is turned off without stopping the unit with the remote controller and is turned on again, the unit starts operation automatically in the same mode as the one set with the remote controller just before the shutdown of the main power. Refer to "Auto restart function".</li> </ul>
The indoor unit which is not operating becomes warm and a sound, similar to water flowing, is heard from the unit.	<ul style="list-style-type: none"> <li>A small amount of refrigerant continues to flow into the indoor unit even though it is not operating.</li> </ul>
The indoor unit discolors over time.	<ul style="list-style-type: none"> <li>Although plastic turns yellow due to the influence of some factors such as ultraviolet light and temperature, this has no effect on the product functions.</li> </ul>
<b>Outdoor Unit (Multi system)</b>	
When heating operation is selected, operation does not start right away.	<ul style="list-style-type: none"> <li>When operation is started during defrosting of outdoor unit is done, it takes a few minutes (max. 10 minutes) to blow out warm air.</li> </ul>
The fan of the outdoor unit does not rotate even though the compressor is running. Even if the fan starts to rotate, it stops soon.	<ul style="list-style-type: none"> <li>When the outside temperature is low during cooling operation, the fan operates intermittently to maintain sufficient cooling capacity.</li> </ul>
Water leaks from the outdoor unit.	<ul style="list-style-type: none"> <li>During COOL and DRY operations, pipe or pipe connecting sections are cooled and this causes water to condense.</li> <li>In the heating operation, water condensed on the heat exchanger drips down.</li> <li>In the heating operation, the defrosting operation makes water frozen on the outdoor unit melt and drip down.</li> </ul>
White smoke is discharged from the outdoor unit.	<ul style="list-style-type: none"> <li>In the heating operation, vapor generated by the defrosting operation looks like white smoke.</li> </ul>
<b>Remote controller</b>	
The display on the remote controller does not appear or it is dim. The indoor unit does not respond to the remote control signal.	<ul style="list-style-type: none"> <li>Are the batteries exhausted?</li> <li>Is the polarity (+, -) of the batteries correct?</li> <li>Are any buttons on the remote controller or other electric appliances being pressed?</li> </ul>
<b>Does not cool or heat</b>	
The room cannot be cooled or heated sufficiently.	<ul style="list-style-type: none"> <li>Is the temperature setting appropriate?</li> <li>Is the fan setting appropriate? Please change fan speed to Med. or High.</li> <li>Is the filter clean?</li> <li>Is the fan or heat exchanger of the indoor unit clean?</li> <li>Are there any obstacles blocking the air inlet or outlet of the indoor or outdoor unit?</li> <li>Is a window or door open?</li> <li>It may take a certain time to reach the setting temperature or may not reach that depending on the size of the room, the ambient temperature, and the like.</li> </ul>

Symptom	Explanation & Check points
<b>Does not cool or heat</b>	
The room cannot be cooled sufficiently.	<ul style="list-style-type: none"> <li>When a ventilation fan or a gas cooker is used in a room, the cooling load increases, resulting in an insufficient cooling effect.</li> <li>When the outside temperature is high, the cooling effect may not be sufficient.</li> </ul>
The room cannot be heated sufficiently.	<ul style="list-style-type: none"> <li>When the outside temperature is low, the heating effect may not be sufficient.</li> </ul>
Air does not blow out soon in the heating operation.	<ul style="list-style-type: none"> <li>Please wait as the unit is preparing to blow out warm air.</li> </ul>
<b>Airflow</b>	
The air from the indoor unit smells strange.	<ul style="list-style-type: none"> <li>Is the filter clean?</li> <li>Is the fan or heat exchanger of the indoor unit clean?</li> <li>The unit may suck in an odor adhering to the wall, carpet, furniture, cloth, etc. and blow it out with the air.</li> </ul>
<b>Sound</b>	
Cracking sound is heard.	<ul style="list-style-type: none"> <li>This sound is generated by the expansion/contraction of the intake grille, etc. due to change in temperature.</li> </ul>
The sound as burbling is heard.	<ul style="list-style-type: none"> <li>This sound is heard when the outside air is absorbed from the drain hose by turning on the range hood or the ventilation fan, making water flowing in the drain hose to sput out. This sound is also heard when the outside air blows into the drain hose in case the outside wind is strong.</li> </ul>
Burbling sound is heard from the indoor unit when DRY/COOL operation is stopped.	<ul style="list-style-type: none"> <li>This is the sound of drained water flowing backward in the drain piping in the ceiling.</li> </ul>
Mechanical sound is heard from the indoor unit.	<ul style="list-style-type: none"> <li>This is the switching sound in turning on/off the fan or the compressor.</li> </ul>
The sound of water flowing is heard.	<ul style="list-style-type: none"> <li>This is the sound of refrigerant or condensed water flowing in the unit.</li> </ul>
Hissing sound is sometimes heard.	<ul style="list-style-type: none"> <li>This is the sound when the flow of refrigerant inside the unit is switched.</li> </ul>
The sound of motor and swirling sound is heard from the indoor unit.	<ul style="list-style-type: none"> <li>This is the sound of water condensed during COOL/DRY operation being drained from the indoor unit.</li> <li>Sound of water draining may also be heard from indoor units which are not operating. (The sound will stop automatically. Please wait.)</li> </ul>
<b>Timer</b>	
Weekly timer does not operate according to settings.	<ul style="list-style-type: none"> <li>Is the ON/OFF timer set?</li> <li>Transmit the setting information of the weekly timer to the indoor unit again. When the information is successfully received, a long beep will sound from the indoor unit. If information fails to be received, 3 short beeps will be heard. Ensure information is successfully received.</li> <li>When a power failure occurs and the main power turns off, the indoor unit built-in clock will be incorrect. As a result, the weekly timer may not work normally.</li> <li>Be sure to place the remote controller where the signal can be received by the indoor unit.</li> </ul>
The unit starts/stops the operation by itself.	<ul style="list-style-type: none"> <li>Is the weekly timer set?</li> </ul>
<b>Dirt</b>	
The ceiling and wall around the indoor unit get dirty.	<ul style="list-style-type: none"> <li>Please clean the periphery of the air conditioner frequently.</li> <li>It may prevent the dirt to lower the wind blowing to the ceiling by adjusting the vertical wind direction.</li> </ul>

**In the following cases, stop using the air conditioner and consult your dealer.**

- When water leaks or drips from the indoor unit.
- When the upper operation indicator lamp blinks.
- When the breaker trips frequently.
- The remote control signal is not received in a room where an electronic ON/OFF type fluorescent lamp (inverter-type fluorescent lamp, etc.) is used.
- Operation of the air conditioner interferes with radio or TV reception. An amplifier may be required for the affected device.
- When an abnormal sound is heard.
- When any refrigerant leakage is found.

**MITSUBISHI ELECTRIC CORPORATION, SHIZUOKA WORKS**  
18-1, OSHIKA 3-CHOME, SURUGA-KU, SHIZUOKA-CITY 422-8528, JAPAN

hereby declares under its sole responsibility that the air conditioners and heat pumps described below for use in residential, commercial and light-industrial environments:  
erklärt hiermit auf seine alleinige Verantwortung, dass die Klimaanlagen und Wärmepumpen für das häusliche, kommerzielle und leicht-industrielle Umfeld wie unten beschrieben:  
déclare par la présente et sous sa propre responsabilité que les climatiseurs et les pompes à chaleur décrits ci-dessous, destinés à un usage dans des environnements résidentiels, commerciaux et d'industrie légère :

verklaart hierbij onder eigen verantwoordelijkheid dat de voor residentiële, commerciële en licht-industriële omgevingen bestemde airconditioners en warmtepompen zoals onderstaand beschreven:

por la presente declara bajo su única responsabilidad que los acondicionadores de aire y bombas de calor descritas a continuación para su uso en entornos residenciales, comerciales y de industria ligera:

conferma con la presente, sotto la sua esclusiva responsabilità, che i condizionatori d'aria e le pompe di calore descritti di seguito e destinati all'utilizzo in ambienti residenziali, commerciali e semi-industriali:

με το πάρο πιστοποίει με αποκλειστική της ευθύνη ότι οι τα κλιματιστικά και οι αντίλεις θέρμανσης που περιγράφονται παρακάτω για χρήση σε οικιακό, επαγγελματικό και ελαφριάς βιομηχανίας περιβάλλοντα:

através da presente declara sob sua única responsabilidade que os aparelhos de ar condicionado e bombas de calor abaixo descritos para uso residencial, comercial e de indústria leveira:

erklærer hermed under eneansvar, at de herunder beskrevne airconditionerlæg og varmepumper til brug i privat boligbyggeri, erhvervsområder og inden for let industri:

intygar härmed att luftkonditioneringarna och värmevärmepumparna som beskrivs nedan för användning i bostäder, kommersiella miljöer och lätt industriella miljöer:

ev, ticaret ve hafif sanayi ortamlarında kulanım amaçlı üretilen ve aşağıda açıklanan klima ve ısıtma pompalarıyla ilgili aşagidakı hususları yalnızca kendi sorumluluğunda beyan eder: deklarirova na svoja očitostvost, če klimatizacije in teropompe, opisani po-dolu, za uporabo v živilščini, trgovski in leki promisleni ustanovitve:

niniejszym oświadczycia na swoja wyłączna odpowiedzialność, że klimatyzatory i pompy ciepła opisane poniżej, są przeznaczone do zastosowań w środowisku mieszkalnym, handlowym i lekko przemysłowym;

erkläret et fuldstændig ansvar for undernevnede klimaanlegg og varmepumper ved bruk i boliger, samt kommersielle og lettindustrielle miljøer:

vakuuttaa täten yksinomaisella vastuullaan, että jäljempänä kuvatut asuinrakennuksiin, pienteollisuuskäytöön ja kaupalliseen käytöön tarkoitettut ilmastointilaiteet ja lämpöpumput: tältä na vlastní odpovědnost prohlašuje, že níže popsané klimatizační jednotky a tepelná čerpadla pro použití v obytných prostředích, komerčních prostředích a prostředích lehkého průmyslu:

týmto na svoju výlučnu zodpovednosť vyhlasuje, že nasledovné klimatizačne jednotky a tepelné čerpadlá určene na používanie v obytných a obchodných priestoroch a v prostredí ľahkého priemyslu:

alulirott kizárolagos felelősségre nyilatkozik, hogy az alábbi lakossági, kereskedelmi és kisipari környezetben való használatra szánt klímaberendezések és hőszivattyúk:

izjavlja pod izključno lastno odgovornostjo, da so spodaj navedene klimatske naprave in toplotne črpalki, namenjene uporabi v stanovanjskih, komercialnih in lahkoindustrijskih okoljih:

declară, prin prezenta, pe proprie răspundere, faptul că aparatele de climatizare și pompele de căldură descrise mai jos și destinate utilizării în medii rezidențiale, comerciale și din industria ușoară:

kinnitab kääsolevaga oma ainuvastutuse sel, et allpool toodud kliimaseadmed ja soojuspumbad on mõeldud kasutamiseks elu-, äri- ja kergtööstuskeskkondades:

ar ſo, vienpersoniſki uzemomies atibildib, paziō, ka tālāk aprakſtie gaisa kondicionētāji un siltumsūķi ir paredzēti ietоšanai dzīvojamājās, komercdarbības un vieglās rūpniecības telpās.

šiuo vien tik savo atskaitėje pareiškia, kad toliai apibūdinti oro kondicioneriai ir šilumos siurbiliai skirti naudoti gyvenamosiose, komercinėse ir lengvosios pramonės aplinkose:

ovim izjavljuje pod isključivom odgovornošću da su klimatizacijski uređaji i toplinske dizalice opisane u nastavku namijenjeni za upotrebu u stambenim i poslovnim okruženjima te okruženju lake industrije:

ovim izjavljuje na svoju isključivu odgovornost da su klima-uređaji i toplotne pumpe opisane u daljem tekstu za upotrebu u stambenim, komercijalnim okruženjima i okruženjima sa lakom industrijom:

настоящим заявляет и берет на себя исключительную ответственность за то, что кондиционеры и тепловые насосы, описанные ниже и предназначенные для эксплуатации в жилых помещениях, торговых залах и на предприятиях легкой промышленности:

цим заявляє, беручи на себе повну відповідальність за те, що кондиціонери й теплові насоси, описані нижче є призначенні для використання в житлових приміщеннях, торговельних залах і на підприємствах легкої промисловості:

**MITSUBISHI ELECTRIC, MLZ-KP25VF, MLZ-KP35VF, MLZ-KP50VF**

Note: Its serial number is on the nameplate of the product.

Hinweis: Die Seriennummer befindet sich auf dem Kennschild des Produkts.

Remarque : Le numéro de série de l'appareil se trouve sur la plaque du produit.

Opmerking: het serienummer staat op het naamplateau van het product.

Nota: El número de serie se encuentra en la placa que contiene el nombre del producto.

Nota: Il numero di serie si trova sulla targhetta del prodotto.

Σημείωση: Ο σειριακός του φρέσκεται στην πινακίδα ονόματος του προϊόντος.

Nota: o número de série encontra-se na placa que contém o nome do produto.

Bemerk: Serienummeret står på produktets fabriksskilt.

Obs: Serienumret finns på produktens namnplåt.

Not: Seri numerasiū ūrūnūn isim plakasında yer alır.

Забележка: Серийният му номер е на табелката на продукта.

Uwaga: Numer seryjny znajduje się na tabliczce znamionowej produktu.

Merk: Serienummeret befinner seg på navneplaten til produktet.

Huomautus: Sarjanumero on merkityy laitteen arvokilpeen.

Poznámka: Příslušné sériové číslo se nachází na štítku produktu.

Poznámka: Výrobné číslo sa nachádza na typovom štítku výrobku.

Megjegyzés: A sorozatszám a termék adattábláján található.

Opomba: serijska številka je zapisana na tipski ploščici enote.

Notá: Numérul de serie este specificat pe plăcuță indicatoare a produsului.

Márkus: Seerianumber asub toote andmesildil.

Piezīme: Sērijas numurs ir norādīts uz ierīces datu plāksnītes.

Pastaba: Serijs numeris nurodytas gaminio vardinu duomenų lentelėje.

Napomena: serijski broj nalazi se na natpisnoj pločici proizvoda.

Napomena: Serijski broj nalazi se na nazivnoj pločici proizvoda.

Примечание: серийный номер указан на паспортное табличке изделия.

Примітка: Серійний номер вказано на паспортній табличці виробу.
